

I'm not too far away from you. I live in Modesto, and my 12 yo autistic child is in program. I pulled him out this year with some resistance from the school district and SELPA(who funds his speech therapy) It was the best thing I did for him. According to a speech pathologist who worked with him the last 4 yrs, she said he has made more gains in the last 9 mos compared to the last 4 yrs. If you have any questions please ask..

Sincerely,

C V
